

**Learning Objective:** To use efficient written and mental strategies to solve subtractions

Solve your subtraction by taking away the tens and then the ones.

$$89 - 25 =$$

20	5
----	---

$$89 - 20 = 69$$

$$69 - 5 = 64$$

This strategy is called **partitioning** or the **split strategy**. In subtraction, this is when you break the smaller number into tens and ones.

$89 - 25 = 64$	$38 - 16 = \square$	$52 - 26 = \square$
$86 - 44 = \square$	$46 - 34 = \square$	$94 - 68 = \square$
$62 - 28 = \square$	$58 - 26 = \square$	$46 - 32 = \square$
$75 - 26 = \square$	$66 - 48 = \square$	$62 - 44 = \square$

Complete the questions below.

Use the number line to solve the subtraction.

$$\boxed{33} - \boxed{16} = \boxed{\phantom{00}}$$

Use the number line to solve the subtraction.

$$\boxed{22} - \boxed{13} = \boxed{\phantom{00}}$$

Rearrange your number sentence and use the counting on strategy to solve your subtraction.

$\square + \square = \square$
$28 - 12 = \square$

Solve your subtraction by taking away the tens and then the ones.

$$\boxed{38} - \boxed{16} = \boxed{\phantom{00}}$$

Solve your subtraction by taking away the tens and then the ones.

$$\boxed{82} - \boxed{54} = \boxed{\phantom{00}}$$

**Learning Objective:** To use efficient written and mental strategies to solve subtractions

Solve your subtraction by taking away the tens and then the ones.

$$89 - 25 =$$

20	5
----	---

$$89 - 20 = 69$$

$$69 - 5 = 64$$

This strategy is called **partitioning** or the **split strategy**. In subtraction, this is when you break the smaller number into tens and ones.

$89 - 25 = 64$	$38 - 16 = 22$	$52 - 26 = 26$
$86 - 44 = 42$	$46 - 34 = 12$	$94 - 68 = 26$
$62 - 28 = 34$	$58 - 26 = 32$	$46 - 32 = 14$
$75 - 26 = 49$	$66 - 48 = 18$	$62 - 44 = 18$

Complete the questions below.

Use the number line to solve the subtraction.

$$33 - 16 = 17$$

Use the number line to solve the subtraction.

$$22 - 13 = 9$$

Rearrange your number sentence and use the counting on strategy to solve your subtraction.

12	+	16	=	28
28	-	12	=	16

Solve your subtraction by taking away the tens and then the ones.

$$38 - 16 = 22$$

Solve your subtraction by taking away the tens and then the ones.

$$82 - 54 = 28$$
